

SYMPOSIUM CELL BIOLOGY AND PARASITOLOGY

Cellbiological aspects of parasite - host cell interactions

Friday October 5th 1979

Royal Tropical Institute, Mauritskade 63, Amsterdam

Morning session - chairman M.F. Kramer, president Dutch Society  
for Cell Biology

- 9.30 - 9.40 I. Molenaar, Centre for Medical Electron Microscopy,  
University of Groningen  
Aim of the Symposium
- 9.40 - 10.20 P. Trigg, World Health Organization, Geneva  
The WHO Special Programme for Research and Training  
in Tropical Diseases
- 10.20 - 10.55 J.A.F. Op den Kamp, Department of Biochemistry,  
Utrecht University  
The asymmetrical organization of plasma-membranes
- 10.55 - 11.20 Coffee
- 11.20 - 11.55 K.P. Dingemans, Department of Pathology, University  
of Amsterdam  
Livercells and their mutual relation
- 11.55 - 12.30 M.T. Jansen, Department of Cell Biology and Histology,  
Utrecht University  
The behaviour of the cell-membrane of the host
- 12.30 - 13.45 Lunch

Afternoon session - chairman H.J. van der Kaaij, president Dutch  
Society for Parasitology

- 13.45 - 14.10 J.H.E.T. Meuwissen, Department of Medical Parasitology,  
Nijmegen University  
Interiorisation of the malaria-parasite in the  
vertebrate-host
- 14.10 - 14.45 W.A.M. Linnemans, Department for Molecular Cell-  
biology, Section EM Structural Analysis, Utrecht  
University  
Cellbiological aspects of endoparasitism in the  
host-cell
- 14.45 - 15.05 Tea
- 15.05 - 15.40 H. Bos, Department for Medical Parasitology, Univer-  
sity of Leyden  
Cell-surface and virulence of and phagocytosis by  
Entamoeba histolytica
- 15.40 - 16.15 E.J. Ruitenbergh, National Institute for Public  
Health, Bilthoven  
Interaction between inflammation-cells and helminths
- 16.15 - 17.00 Panel discussion
