Lelystad, 7 November 1988

Dear Christine,

Many thanks for your letter of October 20th. Unfortunately, I have sent our members the mailing for our meetings held on 28th October and to be held on the 11th of November at the beginning of October. However in the meantime I have multiplied the papers that you had enclosed and I will distribute these on the 11th of November to those who are attending ^{the} meeting and I will send the documents to all others.

A first remark about Prof. Ruitenbergh. I think he is an excellent choice and surely he will not disappoint the audience. I had been so bold to tell him informally that he can expect a letter from your side.

A second point is your question on the names of "distinguished scientists and senior members". We don't have such denominations in our society. We have only two members of honour, one, Prof. van Thiel is 92 years and certainly will not visit the meeting, the other is Dr. Jaap Jansen, now vice-president of the EFP. He will probably visit Southampton.

My last point is the travel to Southampton. A number of people probably will come by bus. We have a deadline for the inscription on 30 November. If we have enough seats occupied, we will travel by bus to Calais and take the hovercraft to Dover.

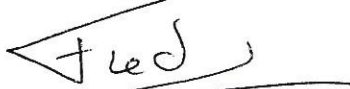

To be continued

The time schedule set up for this trip includes an arrival on Sunday evening at 18.00 hours. S I hope we can have a meal on that day and thereafter our society meeting in the evening, like your society. Details of the travel scheme will be given later. If we should travel by bus, then this bus is also available to bring people to Bournemouth!

I hope that I have informed you enough for this moment.

If you have any question, please do not hesitate to write or call me (after our country number 320073313), like I will do the same if I have any question.

With kind regards,

A handwritten signature in dark ink, appearing to read 'Fred', enclosed within a simple, hand-drawn triangular frame.

Fred Borgsteede, secretary N.V.P.
